East Rd. Usage Proposal

Introduction:

Berkshire East will be hosting the Enduro East mountain bike race on September 9 & 10, 2017. The event is organized by Eastern States Cup. We expect about 150 participants.

The event is a 8 stage bike race over two days. All race stages are held on Berkshire East and Warfield House private property. No race stages will occur on town roads or lands. Racers will cross town roads to access these stages.

Proposed Usage:

On Sept 10th, Racers will transfer approximately a 0.4 mile section of East rd. Hawley from below the X2 zipiness to 131 East rd. intersection with Energy Lane inorder to access a race segment to the west of east road. Below X2 can be identified by extraction point C3 on Extraction Point map. Participants must follow the normal rules of the road at all time. Racers start the race at 30 second intervals, so no “pack riding” should occur. Essentially usage will be no different than normal bikers on the road at any given time, though frequency will increase for a few hours.

Emergency Action Plan:

The town of Hawley will be named as additionally insured by eastern states cup and a certificate of insurance will be provided.

Berkshire East will provide medical response for the event via our Bike Patrol. We will be responsible to extraction to pre-designated extractions points. The extraction points have been provided to Hawley by Dana Johnson previously.

We also propose putting “Caution - Bikes on Road” signs at either end of the affected section of road.
